VOLUME 51 · SUBJECT INDEX

A

Abortion, Induced abortion as an independent risk factor for breast cancer: *correspondence*, **465**

Access to care, The health divide widens in Sweden and Britain, but what is happening to access to care? **589** *abst*

Accident and emergency department, Can primary and community based models of emergency care substitute for the accident and emergency department? A systematic review, **593** *abst*

Accidents, What happened to life expectancy in Spain in the 1980s? **510**, **605** *abst*

Acute care, Predicting the outcome in elderly patients of hospital admission for acute care in Paris, France: construction and initial validation of a simple index, **192**

Advice, Who do clinicians turn to for advice and information? The composition of professional networks in the NHS, **591** *abst*

Age at menarche, Parity, age at menarche, and oral contraceptive use and associated age at inception of perimenopause in women from a national birth cohort, **596** *abst*

Age-cohort model, Estimating life expectancy using an age-cohort model: a critique: *correspondence*, **210**

Ageing
- Global theme issue - Ageing, **469**
- Invitation for papers on Aging for global journal collaboration in October 1997, **1**
- Is ageing of the skin caused by sun exposure? **602** *abst*
- Physical illness and disability among elderly people in England and Wales: the Medical Research Council cognitive function and ageing study, **494**
- Public health implications of ageing, **469**

AIDS
- Does child abuse influence subsequent sexual behaviour and risk of AIDS? *correspondence*, **103**
- What happened to life expectancy in Spain in the 1980s? **510**, **605** *abst*

Air pollution, Air pollution and other local factors in respiratory disease: *historical article*, **216**: comment, **223**

Alcohol
- Deaths from cirrhosis in Poland and Hungary: the impact of different alcohol policies during the 1980s, **167**
- Role of alcohol and other factors in the precipitate decline of Russian life expectancy in the 1990s, **604** *abst*

Alzheimer's disease, Smoking and Alzheimer's disease: an alternative hypothesis: *correspondence*, **579**

Angina
- Angina diagnosis: does the patient get it right? **585** *abst*
- Methodology for assessing the prevalence of angina in primary care using practice based information in northern England, **87**
- Variations in the use of cardiology services: a comparison of coronary artery revascularisation rates with prevalence of angina and coronary mortality, **583** *abst*

Anxiety, Development of a scale to measure symptoms of anxiety and depression in the general UK population: the psychiatric symptom frequency scale, **549**

Asthma
- Asthma, social class, and patterns of consultation in the general population, **593** *abst*
- Asthma mortality in Australia 1920-94: age, period, and cohort effects, **408**
- Asthma and thunderstorms: description of an epidemic in general practice in Britain using data from a doctors' deputising service in the UK, **233**
- Has the prevalence of asthma increased in children? Evidence from a long term study in Israel, **227**

Audiometry, Pure tone audiometry and impedance screening of school entrant children by nurses: evaluation in a practical setting, **711**

Audit, Audit of ascertainment of deaths to children born in Cumbria, UK, 1950-89 through the NHS Central Register, **438**

Australia
- Asthma mortality in Australia 1920-94: age, period, and cohort effects, **408**
- Behavioural dynamics of a clinical trial of sunscreens for reducing solar keratoses in Victoria, Australia, **716**
- Epidemiology of hepatitis C virus infection among injecting drug users in Australia, **692**
- Prediction of coronary heart disease mortality in Busselton, Western Australia: an evaluation of the Framingham, national health epidemiologic follow up study, and WHO ERICA risk scores, **515**
- Predictors of returning for second round screening at a population based mammographic screening programme in Melbourne, Australia, **62**

B

Barcelona, Widening social inequalities in mortality: the case of Barcelona, a southern European city, **659**

Bedrest, Duration of bedrest and hospital stay in myocardial infarction and medical evidence, **591** *abst*

Beds
- Bed use reviews: clinical opinion or objective criteria, **604** *abst*
- Gambling with beds: how do hospitals manage? **604** *abst*

Behavioural dynamics, Behavioural dynamics of a clinical trial of sunscreens for reducing solar keratoses in Victoria, Australia, **716**

Behavioural factors, Can confounding by sociodemographic and behavioural factors explain the association between size at birth and blood pressure at age 50 in Sweden?, **14**

Biological and social influences, Biological and social influences on mortality in a cohort of 15,000 Swedes followed from birth to old age, **594** *abst*

Birth weight, Factors associated with birth weight in Sweden: the study of men born in 1913, **19**

Blood pressure
- Can confounding by sociodemographic and behavioural factors explain the association between size at birth and blood pressure at age 50 in Sweden?, **14**
- Lowering blood pressure: a meta-analysis of non-pharmaceutical interventions, **590** *abst*

Body mass index
- Body mass index, waist circumference, waist-hip ratio, and glucose intolerance in Chinese and Europid adults in Newcastle, UK, **160**
- Secular trends in height and body mass index in British children and adults in the past 100 years, **602** *abst*

Body weight, Smoking and relative body weight: an international perspective from the WHO MONICA Project, **252**
